

Laces with 1 Crystal

Proper lacing with a touch of elegance. Proper lacing ensures maximum performance and Edea laces ensure perfect lacing. They are made of carded, flat tubular Polyester making them tangle-resistant and extra strong. Edea have added extra long ends to ensure easy threading. Edea have added a finishing touch of style to these laces with one Crystal lazered onto the laces. Because laces take so much strain even specially designed skate laces wear out. Laces should be changed as soon as they lose their texture and elasticity as this will mean they come loose more often. On average laces need to be replaced every 3-4 months.
