

MERCURIO elite

Mercurio is the top of the range of the roller line created specifically for professional skaters and high-level athletes (triple and double jumps), featuring an innovative design and technical solutions aimed at combining performance and lightness. Thanks to the combination of the exclusive Pro Mount sole with Air Flow System and research into innovative materials, it offers maximum performance, lightness, breathability and comfort. Its strengths are: Pro Mount sole with Air System featuring an extremely innovative design, made of thermoplastic material that guarantees high performance by reducing weight and vibrations; the exclusive “Pro Mount” technology speeds up and ensures greater stability of the blade assembly, while the Air Flow system allows constant air exchange and maximum breathability for the foot. The combination of microfibre and high-tech fabric ensures stability, strength, lightness and breathability without neglecting the particularly attractive design. Maximum comfort thanks to the anatomical profile, the ultra-padded collar and the special 3D lining (which also maintains the right foot temperature and prevents bacteria from forming) and the possibility of achieving perfect customisation via thermoforming. Excellent support thanks to lateral reinforcements (65).
