

cushions AGILE

The cushions are a fundamental part of the skates and must be always maintained for a maximum state of efficiency. The cushions for the Agile frame are specific to this model. Made with elastomer, they provide a rapid, yet homogeneous level of reactivity, allowing fluid and correct changes of direction. Constituted of an upper (larger) part and a flat lower part (smaller) that offers greater stability. Available in 5 hardnesses (colors). Available in kits of 4 pieces (4 top or 4 bottom). (It is at the discretion of each reseller to sell units in smaller quantities). Agile suspensions are compatible with Evo suspensions.
