

## AMBRA

The Ambra toestops are designed for competition-level skaters, and are the most popular Roll Line© toestops. Made exclusively with natural rubber, the toestop boasts optimal levels of elasticity. The unique composition facilitates the execution of toe-assisted jumps, obtaining a greater push and height, as well as a high level of durability. Allow for a secure and uniform braking experience and, when starting from a stand-still, the Ambra toestops optimize momentum. Available with multiple frames, please consult the comparison table. Roll Line© toestops and frames are designed with an optimal angle to augment the leverage necessary for jumps and spins. Thanks to their unique formula, Roll Line© toestops do not leave marks on the skating surface, and ensure a long lifespan even on rough surfaces. NOTE: Roll Line© toestops have a stem with metric measurements. Please check for compatibility with other brands.
