

CAPPUCCINO

The Cappuccino toestops are designed for the execution of double-and triple-rotation jumps, and are an alternative to the Ambra toestops. Made exclusively with natural rubber, the toestop boasts optimal levels of elasticity. The softer composition compared to the Ambra toestop allows for a slightly better grip. The unique composition facilitates the execution of toe-assisted jumps, obtaining a greater push and height, as well as a high level of durability. The Cappuccino toestop is available solely as an accessory that is sold separately. Roll Line© toestops and plates are designed with an optimal angle to augment the leverage necessary for jumps and spins. Thanks to their unique formula, Roll Line© toestops do not leave marks on the skating surface, and ensure a long lifespan even on rough surfaces. NOTE: Roll Line© toestops have a stem with metric measurements. Please check for compatibility with other brands.
